

Hawai'i Pacific University School of Social Work Practicum Sites as of Fall 2023

Please note: Because an agency is on this list, it DOES NOT mean that they are guaranteed to accept students or that you will meet the requirements that they have (some will only take 2nd year MSW students, for example). The purpose of this list is to give students an idea of what kind of agencies are out there. Some agencies have many programs and may only take students in specific programs. Thank you for your understanding. Some agencies are closed to practicum students during any given school year or semester for a variety of reasons. Please email me with questions: ldunn@hpu.edu. Mahalo!
